Introduction

JMC is a multi-disciplined Trading & General Contracting Establishment with headquarters in the Kingdom of Saudi Arabia. It is a company that has earned a reputation for promoting regional industrial and commercial growth. becoming established as a prominent contractor in the Kingdom, offering services to important clients in the industrial and commercial sectors and participating in its economic expansion.

Over the past ten years, JMC has offered a variety of expert services, including industrial material supply, heavy equipment rental, generator rentals, and manpower supply. JMC, a pioneer in general contracting, upholds its position as the industry leader by prioritising customer satisfaction.

Our Mission

Our goal is to offer the best possible services to all of our clients. Our goal is to build long-lasting connections with our clients by going above and beyond their expectations and earning their trust with our superior work.

Our Vision

Our goal is to become a leading contractor by consistently striving to provide construction services to challenging projects with excellence. Our track record demonstrates that despite all obstacles, we complete the work to the highest standard on schedule and within the allotted budget.

Manpower

By continually aiming to deliver construction services to difficult projects with perfection, our objective is to establish ourselves as a leading contractor. Despite these challenges, as seen by our track record, we consistently perform the work to the highest standard on time and within the budget provided.

Equipment Rental

We are happy to offer hourly, weekly, and monthly fees for the use of our equipment directly under the direction of our clients. Our management team has a wealth of knowledge regarding modern industrial technical standards and safety regulations.

The main line of business for JMC includes rental operations. We assist several regional initiatives that call for equipment leasing.

Material Supply

A company that specializes in trading and providing materials for various construction projects is called JMC, a material trading and contracting company. They find and provide different materials, including concrete, steel, building blocks, and other items linked to construction to contractors and construction firms. They also provide contracting services, offering complete solutions for building projects, including material design, procurement, and installation. By offering goods and services at reasonable prices, this kind of business ensures the efficient completion of building projects and aids contractors in saving time and money.

Scaffolding Rental & Sale

One of the well-known privately held scaffolding companies is JMC Scaffolding Rental and Sale. We operate all over the nation and provide value-added services to the mining, construction, industrial, and civil sectors. We have extensive knowledge doing all forms of scaffolding work in a variety of business industries.

Shuttering plates, couplers, cup locks, joint pins, acro props & spans, adjustable jacks, MS pipes & sheets, and other goods are available from JMC Scaffolding Rental and Sales. Our goal is to deliver services quickly and effectively without sacrificing the caliber of the work.

Accommodation & Catering

We have the ability to successfully complete a variety of projects.

The following list is representative of the types of services offered, however for each client, a unique bundle of services is created in accordance with their unique operational and financial needs.

Catering

- ◆ Catering for commercial, industrial, big base camps, and remote locations.
- ◆ Catering services for employee groups from various ethnic classifications (labourers, juniors, seniors, and VIPs) (Catering for different tastes and cultures).
- ◆ Operation of the canteens in the industrial and residential compounds.
- ◆ Services for delivering prepackaged meals
- ◆ Restaurant Services (Outdoor Catering, Parties, Buffet)

Accommodation Management

- ◆ Running camps and housing complexes for citizens of many ethnic backgrounds.
- ◆ Offering residents, a full spectrum of support services.
- ◆ Consulting services for housing complex design and management.

Civil Works ---

By offering its esteemed clients highly specialised services, producing work of the highest calibre, adhering to the necessary completion schedule, and maintaining a good safety record, JMC Industrial Services has prospered in the cutthroat industry. All services are accurately and expertly carried out while utilising the appropriate tools and cutting-edge technology. Additionally, we build and develop the solutions based on the expectations and financial limitations of the clients in order to suit the varied requirements of the clients. We offer a variety of industrial construction services in addition to general civil and building works, HVAC and firefighting, miscellaneous structural steel work, waterproofing, painting/coating work, temporary facility and site development work, and other services.

One of the companies with rapid expansion, we provide excellent industrial civil and building work. Expert professionals with many years of experience and in-depth understanding in this sector carry out these tasks.

Fencing

A significant portion of JMC Contracting's contracting activity includes civil and fencing work. For both the public and private sectors, fence projects can range from the supply and erection of temporary security fencing to the delivery and erection of high-quality steel, mesh, chain link, barbed wire, and wire fencing.

Our team of specialists is exceptionally effective at handling and finishing the task that has been given to it. Our team is skilled in the usage of machines and technical equipment throughout the fence procedure. We are really lucky to have a highly effective team, which is the main source of our power.

JMC has a full-scale, custom in-house fabrication section that may assist customers in meeting their unique needs. By creating a completely one-of-a-kind ornamental piece for your property, we can add a creative twist to any project.

We have everything you need to get the job done, whether you need something made specifically for you or customised, or you just need ideas for a project. Frequently, we can value engineer your requirements to provide you with the same capability at a cheaper price.

Some of our fencing works are

- ◆ Chain Fencing
- ◆ Mesh Fencing
- ◆ Barbed wire Fencing
- ◆ Gates & wire Fencing
- ◆ Heavy Mesh Fencing etc.

Port Cabin

A portable cabin is a type of modular building that is designed to be relocated easily and efficiently. It is a prefabricated structure that can be used for a variety of purposes, such as a home, office, or storage facility. Portable cabins are usually made of lightweight materials, such as wood or metal, and are often equipped with windows, doors, electrical systems, and plumbing. They are typically delivered to the site in sections and then assembled on-site. The advantage of portable cabins is that they offer a flexible and cost-effective solution for temporary or permanent housing and workspace needs.
